CAMBRIDGE TRAUMA AND
ORTHOPAEDICS CLUB
42ND ANNUAL MEETING
FRIDAY, 28TH OF JUNE 2024

Cambridge
Trauma and Orthopaedic
Club

CTOC 42

MEETING PROGRAMME

The Cambridge Trauma and Orthopaedic Club (CTOC) welcomes you to our annual meeting on 28th of June 2024, at Imperial War Museum Duxford, Cambridge.

The Cambridge Orthopaedic Club was formed in 1982 to provide an academic and social meeting for past and present trainers and trainees of the region. The meeting has evolved considerably over the years both in its content and attendance.

This year's CTOC promises to surpass all expectations with seven excellent keynote speakers and a good mix of research papers from the region. The event will take place at Imperial War Museum Duxford, which offers a rich history, large capacity and breakout rooms. The club covers the largest training rotation in the country and includes all subspecialties within trauma and orthopaedics. The conference attracts many consultants and registrars and has a broad scope of interests.

The annual dinner will be held at the prestigious King's College, Cambridge.

Secretary, Mr. Nadim Tarazi, President, Miss Lora Young and Academic Chair, Mr. Khanduja along with the team have put together an excellent academic and social programme and we look forward to seeing you there.

ABOUT CTOC AND EOE

CTOC

The Cambridge Orthopaedic Club was formed in 1982. The primary aim of the Cambridge Orthopaedic Club was to provide an opportunity for past and present trainers and trainees to meet together annually for both an academic and social meeting. The inaugural meeting of the Cambridge Orthopaedic Club was in the University Graduate Centre in 1982, with Alan Murley as president. Since then the Cambridge Orthopaedic Club has expanded and members now include past and present trainees, as well as trainers.

Club

EAST OF ENGLAND T&O

The East of England training rotation now covers the largest region in the country, both geographically, and with the largest number of registrars (70). We cover Addenbrookes (Cambridge), Norfolk and Norwich University Hospital, West Suffolk Hospital (Bury St Edmunds), Ipswich, Colchester, Chelmsford, Southend-on-sea, Luton, Bedford, Peterborough, Kings Lynn, James Paget University Hospital (Great Yarmouth), Harlow and Lister Hospital (Stevenage). This means that our annual CTOC conference is very well attended by consultants and registrars alike and has a very broad scope of interest with all subspecialties within trauma and orthopaedics included.

THE COMMITTEE

MS LORA YOUNG
CTOC 42 President
West Suffolk Hospital
